RELEASE NO. 01-008

NASA selects company to provide information services

NASA selected ASRC Aerospace Corporation, Greenbelt, MD, to provide scientific and technical information services and related support for the Center for AeroSpace Information (CASI) located in Hanover, MD.

CASI supports the NASA-wide Scientific and Technical Information Program, located at NASA Langley Research Center, Hampton, VA.

The cost-plus-fixed-fee contract has a total estimated value of \$29 million. It is a one-year contract with four option years. ASRC Aerospace will acquire, organize, disseminate and archive scientific and technical information, including database creation and maintenance.

The principal work will be performed off-site at the contractor-run facility in Hanover.

ASRC is a tribal-owned small disadvantaged business.
